

HALKIN.

The Halkin plaster wall light is an elegant, stylish and versatile wall lighting option. Our plaster wall lights cast a stunning light effect against the wall behind, providing both a practical and beautiful lighting solution for hallways, stairwells, living rooms, bedrooms, office spaces, reception areas, waiting rooms, corridors and more. Our plaster lights can be painted to match the colour of the wall they are installed on.

Decorative Light Effect

This elegant and stylish light features openings, allowing light to be cast on the wall above and below, creating a stunning decorative light effect.

Versatile Light Fitting

A practical and beautiful lighting solution for hallways, stairwells, living rooms, bedrooms, office spaces, reception areas, waiting rooms etc.

Paint to Match Decor

The smooth plaster shade can be painted with a good quality emulsion in order to match the colour of your walls, making it perfect for interior design.
